SKILLS

See my portfolio at https://github.com/njmayes

STRENGTHS

Fast Learner – I pick up new skills quickly, often being given responsibility early in employment, with the ability to learn complex topics independently.

Problem Solver – When presented with a new challenge, I am quick to identify possible solutions and determine the pros and cons of each choice.

Self Driven – I get great enjoyment out of learning and challenging myself, and am always looking to expand my knowledge, on my own or from other people.

EDUCATION

University of Birmingham

Theoretical Physics + Applied Maths MSci — ***October 2015 – June 2019***

- My masters project on type II superconductors, involving writing physics simulations in C++, and analysing the data computed using Mathematica.
